
Quiz questions won't show up

Posted by bmeyer - 2016/01/27 16:40

After some years of perfect functioning my Ari-quiz won't show the questions anymore, shows me the window in the attached jpg. Thought it might have to do something with updating joomla, so I restored to 3.4.5, but same problem. Please help. <http://www.ari-soft.com/images/fbfiles/images/ariquiz.JPG>

Just installed 3.8.4, but got the message: Points rules were not installed because EasySocial component is not installed.

Could you provide a temporary access to your J! backend by email so we can investigate the problem?

This problem with AllVideos plugin. It is not compatible with your Joomla! version. Disable it or upgrade to the latest version.
