
erro questions

Posted by germanoalves - 2016/02/27 05:56

I am testing the light version of the quiz component .. from time to time , questions are cut off , sometimes add the button to save .

What can this be?

Hello,

Send a link to a quiz where the problems occur and screenshots where possible to see these problems.

Regards,
ARI Soft

Please send a link to a quiz where the problems occur and screenshots where possible to see these problems. We need to see the problems to have ability investigate them.

Regards,
ARI Soft
