
I can't create new Text Templates

Posted by fspadaro - 2016/10/18 23:00

Hello ARI,

I'm using Ari Quiz Lite component with Joomla 3.6.3.

I can't create new Text Templates for result pages or modify the Base Template.

I click on Add and I create a new template, but Save button doesn't work.

Can you help me please?

Thanks alot.

Hello,

Download the latest version of the extension and install it. If it doesn't help, could you provide a temporary access to your J! backend by email so we can investigate the problem?

Regards,
