
More than 2 Access User Groups

Posted by fredc15 - 2016/12/05 13:53

I'm testing out Ari Quiz using the lite version. Right now I only seem to be only able to give two groups access to a quiz, I have specific registered users that only need access. Is there a way to achieve this? Ari Quiz full?

Overall I like the component. But this feature, or lack thereof is a show stopper for me.

Thanks in advance

Hello,

"ARI Quiz" supports ability to select an access level in quiz category/quiz settings. Only users who belong to a user group from the selected access level will have access to quiz. Access levels can contain several user groups.

"ARI Quiz Lite" doesn't support this feature.

Ok thanks,

If I upgrade to Ari Quiz, do I loose what i've setup in Ari quiz lite?

Thanks,

All quizzes from "ARI Quiz Lite" will be available in "ARI Quiz" after upgrade.
