Can\'t choose options in Quiz
Posted by Melina - 2010/08/31 11:00

_____

Hi
I have created a single question quiz using Ari Quiz lite but when taking it a a user I can't seem to click any answers in the multiple choice....

The test can be found here : http://www.ronin.co.za/index.php?option=com_ariquizlite&task=quiz&quizId=1&Itemid=0

Thanks

_____

Hello,

This isn't the component problem, this problem with the next file from your site template:

/templates/rt_solarsentinel_j15/js/rokutils.inputs.js

Javascript code from this file hide checkboxes. This file is obfuscated because we can't investigate this issue in more details. You can remove this file or contact site template developers that they fix this.

Regards,
ARI Soft
