Hello i have transfered my website on another host and now some of the menus or the quizes i cannot exactly locate what. are redirecting the pages to the old server i.e. i created new menu link with selected quiz and it redirects me to the old server	;
please help

Hello,	
Provide temporary access to your Joomla! backend by email that we can investigate this issue.	
Regards, ARI Soft	
Re:server migration Posted by Lemonbear - 2010/09/28 20:45	
never mind, i fixed the problem. thanks	
Re:server migration Posted by Lemonbear - 2010/09/28 20:48	
however i have found another. Hot Spot questions are not working, the image is not showing at all. I tried to create n question and nothing as well.	ew
Please don't ask me to give you access to the backend, since i am not allowed to do that. I am not the owner of the s	site.
The hosting we use now is Cirtex if it helps somehow to know it.	
thanks in advance	
Re:server migration Posted by admin - 2010/09/29 08:35	
Sorry, but if you can't provide link to page where we can see this issue, we can't help because we need to investigate this problem.	Э
Regards, ARI Soft
