Hello

I have a problem with ARI QUIZ LITE and with question time. When I use the question time so results are bad even if it was marked right choice.

Quiz Time with Quiz working properly

Hello,

Could you provide link to page where we can see this problem and temporary access to your Joomla! backend by email that we can investigate this issue?

This problem with time configuration on web server and server where database is installed. They have different time. Contact your hosting support that they synchronize time on these servers.
