## Image from other articles collapse into one? Posted by mistan - 2011/03/06 05:20

I have bought ARI slider and installed in my site with Joomla 1.6. I have a few articles with same layout . For some reason, all the images collapsed into the first articles. Here is my site link http://www.jenniferfieldbankruptcy.com Please help, Thanks.

Tony

Hello,

This problem with CSS styles of articles which is loaded into the slider. Add the next CSS rules to "Styles" parameter in module settings or to site template CSS file:

.ari\_slider\_item .float-box float: left; } .ari\_slider\_item #headerslide2 IMG { margin: 0 !important; position: relative !important; }

Regards, ARI Soft
