
non-fading arrows

Posted by amandah - 2011/03/21 17:13

Hi,
thanks for that great module.

Is there any way to remove the fading-effect from the arrows, so that they are always visible?

Thanks

amandah

Hello,

Download and upgrade "ARI Slider" module. New version of the extension contains new parameter "Show next/prev buttons on mouse hove". Set this parameter to "No" and "Show next/prev buttons" parameter to "Yes" that the module shows next/prev button constantly.

Regards,
ARI Soft

Wow, thank you very much!!!!

It works perfectly.

Regards
