how can I reduce the size of the dropshadow

_____

hi everybody,

i found the solution to unable the dropshadow - but can I reduce the size of it?
I want the shadow a little bit "finer" - it blurs too much with the pics i use.

Can you tell me where I find the settings fo that?

Thanks and greetings from germany :)

Hello,

Probably you mean "ARI Image Slider" extension, not "ARI Slider"?

Try to add the next CSS rules to "CSS Styles" parameter in module settings or to site template CSS file:

DIV.nivoSlider
{
 -moz-box-shadow: 0 0 5px #333;
 -webkit-box-shadow: 0 0 5px #333;
 -o-box-shadow: 0 0 5px #333;
 -ms-box-shadow: 0 0 5px #333;
 box-shadow: 0 0 5px #333;
}
