
How to show title in Ari Slider in h5

Posted by communicat - 2011/05/07 13:38

Hi,

I would like to know how I can show the title in Ari Slider, for instance in h5. Now all tekst is shown as plain tekst.

Any help would be greatly appreceated!

Hello,

Open module settings page and set "Title" parameter to:

{ \$title }

instead of:

{ \$title }

Regards,
ARI Soft
