## Thumbnail not disappearing & strange white bar?

Posted by iCandy - 2011/11/21 16:11

---

Please have a look here: [http://174.121.36.9/~attr/index.php?option=com\\_content&view=article&id=14&Itemid=35](http://174.121.36.9/~attr/index.php?option=com_content&view=article&id=14&Itemid=35)

How do I get rid of the little image at the top? Is this a thumbnail? I have thumbnails set to no.

Also, there is a strange white 'bar' appearing across the first image?

Thirdly, is there a way to remove the shadow border?

thanks!

Hello,

The extension doesn't add any extra images. A little image at left side can be added by site template or 3rd party extension.

Could you provide a screenshot where we can see what white "bar" you mean?

Regards,  
ARI Soft
