Skript error

Posted by dimna - 2011/12/16 20:33
_____

Hello,

last week i bought your ARI Easy Slider. When I use this Slider and I want to view the properties of an image (right mouse on that image| Properties) I get an error.

I use IE9, Joomla 1.7 with the standard theme Beez 20.
When I use FireFox or an older IE have no error.

Thanks Astrid http://www.ari-soft.com/images/fbfiles/images/1-85ccb1c17e7c09c6c45dd24cf335c179.jpg

Hello,

Could you provide a link to a page where we can see described problem?

Regards,
ARI Soft

Hello,
thank you very much for the fast reply.
Up to now, I only had a lokal installation.
But I in the last houre I installed it on a testpage:
http://dimna.de/Joomla17_/
Its Joomla 1.72 with the standard design beez_20 and your extensions. An I only have this problem in ie9!
Thanksa and kind regards
astrid

_____

It is not "ARI Easy Slider" issue. You can temporary disable the module and the problem still exists. This problem with /media/system/js/mootools-more.js javascript file which is loaded by Joomla!

Regards,
ARI Soft

Thanks. When I exclude the mootool-files there is no error any more.
I use this code:

$headerstuff = $this->getHeadData();

```
$scripts = $headerstuff;
$headerstuff = array();
foreach($scripts as $url=>$type) {
if (strpos($url, 'mootools') === false) {
  $headerstuff = $type;
 }
}
$this->setHeadData($headerstuff);
```

===
