
Select a category

Posted by dimna - 2011/12/17 00:30

Hello,
I like to show a slide with all articles in the category auto. But when I select the category and click on the save button, my selection disappears.
The slide appears on the selected position, but it is empty. Here you can see my test page:

Kind regards

Hello,

Check that "System - ARI Extensions" plugin is installed and enabled.

Regards,
