# Unable to change Ari_Slider\'s size in a module

Hey there!

I'm having a problem using Ari Slider in a module (joomla 1.5 & gantry framework). After changing the slider size to 150x100px inside a module, I get the full size pics. Any clue?

Thanks.

Hello,

Provide a link to a page where we can see described problem and screenshot(s) of module settings page.

Regards,
ARI Soft
