Drop default style
Posted by whuggett - 2012/01/21 04:24
_____

How do I drop the default style. Perhaps it's not default, but I'm getting a white box background with a grey border. I just need the text and image without the background - relying only on the Module Position style.

Website is amcana.ca ("Clients" section on homepage).

Thanks

Hello,

Add the next CSS rule to "Styles" parameter in module settings:

.center-column .ari_slider
{
 border-style: none;
 box-shadow: none;
}

Regards,
ARI Soft

Unfortunately code didn't work. But I was able to find what I was looking for in the includes/js/slider.css file.

Provided code works fine. We have checked it in FireFox 9.

Sorry, miss-copied the code (pulled it from the email, not the forum post).

Thanks!
