Hi Guys

I can see this is a great product but for some reason I cant get it to work on my homepage article.
All I need is a simple image rotator to cycle 4 images, I have got the module working perfectly
and inserted the {arislider moduleId=""}
in the article but nothing comes up

please ahelp

Hello,

Correct code is:

{arislider moduleId="201"}{/arislider}

"ARI Slider" module with ID = 201 should be enabled.

Thank you so much! Perfect
Sorry i must have missed that closing tag...

lastly is there an easy way to get rid of the thin grey border that surrounds the slider?

Could you provide a link to a page where we can see a slider? It can be a problem with site template styles.

_____

Add the next CSS rule to "CSS Styles" parameter in module settings or to a site template file:

```
DIV.ari_slider
{
  border-style: none;
  -moz-box-shadow: 0 0 0;
  -webkit-box-shadow: 0 0 0;
  -o-box-shadow: 0 0 0;
  -ms-box-shadow: 0 0 0;
  box-shadow: 0 0 0;
}
```

Hi Brilliant

Thank you so much for the code :)

the site is www.bmcforme.co.za

and its working perfectly now.

Hi, I'm trying to do the same thing and when I insert this code, all I get is the line of code appearing as text.
http://skateparktour.ca/index.php/bc/90-bc/bc-interior/74-faction-skate-a-bmx-kamloops-bc

I haven't been able to find documentation with detailed directions so I'm not sure what incorrect setting I may have in place. Any help in pointing me to documentation or correcting my setup would be appreciated.
