
how to Display Thumbnails in Menu from Articles

Posted by shehzi - 2012/03/21 14:36

How to display thumbnail images of the menu from Articles so i don't have to go to module to select image for each.

please Help....

Hello,

Could you explain how the extension should get thumbnails from articles?

We can extract the same image which is added in the Article this way we don't have to select article's picture every time by going to module. If there is a picture added then we can just show otherwise text.
