
Add link to the image

Posted by GrafixVision - 2012/05/16 15:16

I want to know how to add a link directly to the images in my slider?

=====

Hello,

Do you mean "ARI Image Slider" module?

Regards,
ARI Soft

Re:Add link to the image

Posted by GrafixVision - 2012/05/16 15:28

I would like to place image slider to the article and make each image as a link to the other page on my website.

=====

Re:Add link to the image

Posted by admin - 2012/05/16 15:31

A module can be loaded into an article with help of "Content - Load Module" standard Joomla! plugin. You can read about it [here](#).

Slider images can be associated with links with help of INI file. A link to a sample INI file and documentation how to use it can be found in "Description" field on module settings page.

Regards,
ARI Soft

I can create the link as a text for each image. There is no problem. But how to make a image as a link?

=====

Re:Add link to the image

Posted by admin - 2012/05/16 15:43

Have you created INI file with links? If yes, where we can see a slider and INI file?

Regards,
ARI Soft

Re:Add link to the image

Posted by GrafixVision - 2012/05/16 15:55

Yes, I do. Please look at the bottom of this page:

<http://agelessmedspa.net/about.html>

=====

Re:Add link to the image

Posted by admin - 2012/05/16 15:59

Use the next content in INI file:

slide_01.jpg="Cellulite reduction"
slide_02.jpg="Slimming"

slide_01.jpg="http://www.agelessmedspa.net/"
slide_02.jpg="http://agelessmedspa.net/non-surgical-body-slimming-and-cellulite-reduction.html/"

Regards,
ARI Soft

Sry to hijack your thread, admin do you mean .csv file. i am having trouble making links work as well. I attach my .csv where i have tried

```
"File","Title","Description"  
"Packshot-Photography.jpg","Packshot",""  
"website-management.jpg","Packshot","http://web-design-3d.co.uk/website-comparison"
```

i cant get either of these to work as yet. any help gratefully received. <http://www.ari-soft.com/images/fbfiles/files/arislideshow.zip>

Re:Add link to the image

Posted by admin - 2012/06/11 11:42

Content of your CSV file is incorrect. If you want to use tag in "Description" field, use the next content:

```
"File","Title","Description"  
"Packshot-Photography.jpg","Packshot","Link"  
"website-management.jpg","Packshot","http://web-design-3d.co.uk/website-comparison"
```

PS: You can use OpenOffice application to edit CSV files.

Regards,
ARI Soft

Re:Add link to the image

Posted by tigs - 2012/06/11 12:02

I copied and pasted the code directly and it still wont link.
I use a text editor or excel does that matter at all?

I am currently using the slider on this page. www.web-design-3d.co.uk

Re:Add link to the image

Posted by admin - 2012/06/11 12:58

You use "ARI Image SlideShow" module, not "ARI Slider" module. "ARI Image SlideShow" module supports "File", "Title" and "Link" columns in a CSV file. Use the next CSV file:

```
"File","Title","Link"  
"Packshot-Photography.jpg","Packshot","http://web-design-3d.co.uk/packshot-photography"  
"website-management.jpg","Packshot","http://web-design-3d.co.uk/packshot-photography"
```

CSV file should be located in folder with images.

PS: If it doesn't help, provide the link to the CSV file which you use.

Regards,
ARI Soft
