
Change Icon Image Folder

Posted by waveprint - 2012/10/01 17:09

Hi, I would like to change the location of the icon image folder, I have seen another post (here) which refers to how this is done by changing some of the module's files before installing the module, but as I am not experienced in this area I would prefer not to mess around with the files myself!

I would like the icons to be located in...
images > stories > ari_icons

Can you help??

Hello,

Check your mail please. We have sent updated module.

Regards,
ARI Soft
