ARI Slider Articles and navigation not working

Posted by cima - 2010/03/23 21:29
_____

I have installed ARI Slider. The articles do not rotate, and when I go to click on navigation links my entire page refreshes, the article remains on the first. Any suggestions?

Hello,

Provide link to page, please, where we can see this issue. If it's private, you can send it by email.

Regards,
ARI Soft

It seems this is conflict with javascript from your Joomla! template. Download updated version of "ARI Slider" in "Member Area" on our site and update "ARI Slider" Joomla! module, please, it should help.

I have the same issue with template JA_Purity_II
I need to resolve that... Any clues? I just bought your extension :(

Hello,

This problem with your site template, it contains incorrect styles. Open /templates/ja_purity_ii/css/template.css file, find line #1293 and replace the following CSS rule:

#ja-topsl ul, #ja-topsl p, #ja-topsl ol, #ja-botsl ul, #ja-botsl p, #ja-botsl ol {
  margin:0 !important;
  padding:0;
}

with

```
#ja-topsl ul, #ja-topsl p, #ja-topsl ol, #ja-botsl ul, #ja-botsl p, #ja-botsl ol {
  margin:0;
  padding:0;
}
```

and add the next CSS rule to template CSS file:

```
#ja-topsl li.es-news-item,
#ja-botsl li.es-news-item {
 background-image: none;
 padding-left: 0;
}
```

PS: If you have any difficulties with it, you can provide temporary access to your Joomla! backend by email and we'll help you.

Regards,
ARI Soft
