Filter Truncate not working

Posted by lavaground - 2013/05/28 13:42

_____

as the title states it doesnt work for me.

if i go with {$fulltext} the text shows up, when i set it to {$fulltext\|truncate:10} it just shows the command and not the text. as well as {$readmore_link} just prints out the url (eg.: "/this_is_a_page_link/test.html") and doesn't make a readmore link -> (url)

Joomla 3.1.1

_____

Hello,

Use the following code:

{$fulltext|truncate:10}

and this code:

Read more...

{$readmore_link} contains only a link and it can be wrapped with necessary HTML code (it can be a hyperlink or an image and etc.).

Regards,
ARI Soft
