_____

Hi there,

First of all, congratulations for this great module.

I only one problem, when i open my website on a smartphone, i've problems when transitions starts.
Can anyone help me?

The website is: www.arcobike.pt

regards.

Hello,

At least upgrade the module to the latest version (the latest version is 2.1.11, but version 2.1.0 is installed on your site).

Regards,
ARI Soft

Hi,

I've upgrade to latest version 2.1.11, and the problem still appens.

Thanks

Nuno

This problem with site template styles. The following CSS rule in /templates/arcobike/css/template.responsive.css file causes the problem:

.default-responsive .art-header *
{
  position: relative;
}

Regards,
ARI Soft

I donÂ´t know how to fix this, so i disabled "responsive" on artisteer template :-(

Thanks
