
Question. other slideshow but in different page.

Posted by kman - 2016/05/09 06:39

Hello guys, how is possible to put another slider with images to other page but same website.

le. I have it installed on "main page" and is running, but how to put another slider to another page but different images .?

any idea? Do i have to make another slider installation on the same website but different filename instead arislider to "arislider2"

Regards

Kris

Hello,

Joomla! supports ability to create as many module instances as you wish. For this use "New" or "Duplicate" button on "Extensions -> Modules" page on Joomla! backend.

Regards,

ARI Soft
