Javascript used by ARI Slider and ARI Sexy Lightbo

Posted by NosyWeb - 2016/06/14 12:00

_____

Hello,

Could you tell me what are the javascript files (Joomla and ARI) used by ARI Slider and ARI Sexy Lightbox Lite ?

Many thanks for your help.

Regards.

_____

Hello,

"ARI Image Slider" loads files from /modules/mod_ariimageslider/js folder. "ARI Sexy Lightbox Lite" plugin loads files from /plugins/content/arisexylightboxlite/arisexylightboxlite/js folder.

Regards,
ARI Soft

_____

Hello,

Thanks.
You don't use Joomla Jquery files ? Caption.js ? ...

Regards.

_____

The extension loads jQuery library via Joomla! API for Joomla! 3.x.

Regards,
ARI Soft
