The \"Next\" arrow is hidden Posted by spektre - 2010/08/10 17:09

Hello,

i've just bought & installed the latest version of ARI Slider and i have a little problem. I have 9 items and the "next" arrow is hidden. The "previous" one appears well but not the "next". You can see an exemple there : http://www.europeanoutdoorforum.com/paul-petzl.html Does someone have a solution for this ?

Thank you very much.

Hello,

Could you provide temporary access to your Joomla! backend by email that we can investigate this issue and provide solution?
