
I can't import ZIP-Export to another Installation

Posted by godekrecords - 2021/11/30 22:53

Hai!

The best Slider EVER!

I created a very nice Slider with this outstanding Tool. I exported this slider to import it also on my german website on different Domain.

BUT: The ZIP will not be imported at the other Instance of ARISlider on this website...

What can i do? I don't want to do alllllll the work for this slider to make new one with only little changes. It takes me long days to make this slider. And i only want this slider running - a little manipulated on the other site..

I hope you can help =)

Greetz

I have attached this ZIP-File to this Post.

Oh. The ZIP is more than 750 kb - it's 1.5 MB. How can i send?

So i only give Link to the slider here:

<https://bbloxx.pl/index.php/bloki-betonowe-polska-kup/zaplanuj-plan-dla-swojego-projektu-budowy-blochkow-betonowych-juz-teraz-online-z-orientacyjne-koszty-konfiguracji>

Hello,

Could you send ZIP by email?

Regards,
ARI Soft
