
Got any documentation?

Posted by screamingfingers - 2011/02/26 21:54

Is there any documentation on how to use this light box? I'm on the module set up and see what you have there, but I don't see any info on using it.

Hello,

The module and each plugin from "ARI Sexy Lightbox" package contains instructions how to use it in "Description" field on module or plugin settings page. Each parameter also contains tooltip with description. See screenshot of module settings page with documentation below please:
