## Closing lightbox after a form is submitted

Posted by screamingfingers - 2011/03/24 03:38

---

Hi Guys,

OK I don't know if this is possible. I would like to have a form put into the light box, (capture email address) and once the form is submitted, the box automatically closes. Is that possible?

Thanks,

David

Hello,

You can try to add the next javascript code to submit form button:

```
if (typeof(window.top) != 'undefined') window.top.SexyLightbox.close();
```

If you have any difficulties with it, you can provide temporary to your Joomla! backend by email, describe where we can see the form and we will be glad to help you.

Regards,  
ARI Soft
