Hello,

Could you provide link to page where we can see the problem because it can be a conflict with site template styles?

Add the next CSS rule to site template CSS file:

```
#SLB-Wrapper #SLB-Top div
{
margin: 0;
}
```

Do you use "ARI Sexy Lightbox" module, "System - ARI Sexy Lightbox Anywhere" plugin or "System - ARI Sexy Lightbox" plugin?

We have updated "ARI Image Slider" module. New version contains "Lightbox integration -> Background color" parameter which helps to specify lightbox background color. Download and upgrade the module please.
