
ARI Sexy Light Box- Remote image

Posted by chakkaramole - 2011/04/11 12:44

I want to display a remote image in its original size. I applied following code but it did not worked

```
{arisexylightbox thumbWidth="250" thumbCount="1" keepSize="1" }  
content ... content ...
```

Please click on the image to read the page

```
{/arisexylightbox}
```

Hello,

"keepSize" parameter doesn't work for remote and inline images.

Regards,
ARI Soft
