## Install Affects Front Page Joomla 1.6

Posted by Ellsinore - 2011/05/04 05:28

---

I've upgraded to Joomla 1.6 and installed Ari Sexy Lightbox module. When I did, it changed the styles on the first page, but not on subsequent pages, adding color and a border to the front page articles:

[http://cousin-collector.com/images/ari\\_sexy.gif](http://cousin-collector.com/images/ari_sexy.gif)

The template is Beez20. How can I remove this? Thanks!

Hello,

Could you provide link to page where we can see the problem? If you can't provide link, send page files of front page by email. This process is described here.

Regards,  
ARI Soft

Hello,

Check that "System - ARI Extensions" plugin is installed and enabled (this fact is specified in readme.txt file from extension's archive). Check also that you use the latest version of the extension. It is compatible with Joomla! 1.6 and work on a lot of customer's servers.

PS: HTML page from attached archive doesn't contain any reference to "ARI Sexy Lightbox".

Regards,  
ARI Soft

How do I get back to the download link? I can't seem to find it -- but it's been more than 30 days.

---

You are correct -- the HTML on that page doesn't reference ARI Sexy Lightbox. The plugins/modules aren't used on that page. But the problem occurred after I installed them -- it wasn't there before and no other changes were made.

The extension can be download in Member Area. Install the latest version of the module and plugins (if you use them) and check that "System - ARI Extensions" plugin is installed and enabled.

Thank you -- everything is installed and seems to be working now. I still have the odd colors on the front page, though. I'll check over at the Joomla forum and see if anyone there knows anything about it. Since ARI Sexy Lightbox was the only thing I had installed when it happened, I'm guessing there's a connection -- but with Joomla, who knows? :-)

Thank you for all the help. I'm certainly getting a lot of mileage out of that \$12. I guess I'll have to buy some more stuff. :-)
