
Pop up not working

Posted by daopdesign - 2011/05/13 16:01

Hi, I've installed all the plugins and entered this code into my article:

```
{arisexylightbox activeType="article" width="300" height="250" id="97" link="Show article" title="Article"}}{/arisexylightbox}
```

but the link goes to another page and not a pop up!

<http://yourviewing.com/index.php/sample-videos>

I am just trying to load another article in the pop up window, can you have a look and let me know if I've missed anything

Hello,

Open "System - ARI Sexy Lightbox Anywhere" and "System - ARI Sexy Lightbox" plugin settings pages, check that "Include jQuery" parameter is set to "Yes" and re-save plugin settings in any case. It should help.

Regards,
ARI Soft

Thanks for the quick reply!

Already checked that - set to yes.

Any chance if you give me your email you could take a look in the back end for me?

Having the same problem

Goooooogle

used this code as well

yeah i manage to get the pop up to work but it didnt load my youtube video.
If these can help just edit the plugin and set Load Assets to always. my problem now is how to laod youtube videos with these code

Watch Live Streaming

<http://soccerphilippines.com> at the lower right portion

You use "ARI Sexy Lightbox Lite" plugin. It is content plugin, Joomla! executes content plugins only for articles. BTW, "ARI Sexy Lightbox Lite" doesn't support YouTube videos, but "ARI Sexy Lightbox" supports YouTube videos and can be used in any content, not only in articles.

Hello,

Could you specify what code doesn't work and provide link to page where we can see it?

Regards,
ARI Soft
