Can\'t get lightbox to open from menu
Posted by bburbank - 2011/06/10 15:27
_____

I can't get the lightbox to open from the menu. Link: http://turnermultimedia.com/home/

It's the Portfolio menu item and it's linked to a portfolio module.

Hello,

Install "System - ARI Sexy Links" plugin then open plugin settings page, configure it and enter the next code in "Elements CSS selectors" parameter:

"UL.menu-nav LI.item73 A"|width=500&height=350

PS: Don't forget to enable the plugin.

Regards,
ARI Soft

Cool. That worked but now Portfolio can't be seen on the menu. There is a blank space.

It seems this problem occurs because Cufon library is used for menu items. We will investigate the problem in more details and report about results soon.
