
How to show randomly thumb in PICASA

Posted by raidnet - 2011/06/14 05:35

Using PICSA with ARI sexylightbox I see in th configuration parameters the optinon Imge count and start index, how I can set to show random picture in the thumb view?

Example:

I have 10 picturs in my picasa folder and 3 thumb on my web page, I would have the 3 different thumbs (random) at every page load.

It's possible?

thanks

Hello,

Picasa API doesn't provide ability to select images in random order.

Regards,
ARI Soft
