Adding new features

Posted by Partizan - 2011/06/14 14:09

_____

Is it possible oncoming add 2 importand features in the ARI Sexy Lightbox anywhere,

open Sexy Lightbox after custom time with delay and close automatically after custom sec.

This will complete your plugin.
 :woohoo:

_____

Download and upgrade "ARI Sexy Lightbox" module. New version provides ability to specify period of time after what automatically opened lightbox will be closed. Use "Auto close delay" parameter for this. That specify delay after what the lightbox will be shown, use "Auto show delay" parameter. For "System - ARI Sexy Lightbox Anywhere" plugin use "autoShowDelay" and "autoCloseDelay" attributes.

Regards,
ARI Soft
