
one very small problem

Posted by Partizan - 2011/06/17 13:19

:side: I living in Iran, and in the my country Government(:S) use internet filterin (very high-profile) on the Internet filtering evry word and content
so in the ari product Used the word (sexy) in the product css file and some css image name.
and in the my country filter this word in the all request by web browser.
so I need to change this file name in the this product.

modules/mod_arisexylightbox/includes/js/sexyimages/fancy_black/bgSexy.png

Hello,

Download and upgrade "ARI Sexy Lightbox" module. It should help.

Regards,
ARI Soft
