very important option

_____

Hi and thanks
please add option to choice load jquery from local or CDN(CDN option to choice http or https)
i need to this option and now i manually change it.
and add option to choice 1.5.1 version of jquery
because in the middle east when loading js file from none https CDN receive data in not compressed mode
(The majority of requests coming from some Middle Eastern countries donâ€™t
have a valid Accept-Encoding header) and gzip mode not work.. :angry:

Re:very important option

_____

and please add option for google CDN mode include http and https mode

==

Re:very important option

_____

In the future it may be possible to add this option

==

Re:very important option

_____

New version of the extension provides ability to choose jQuery loading method (local copy or from Google CDN).

Regards,
ARI Soft
