
Thumbnail to Youtube video

Posted by stewstew - 2011/06/20 18:31

i want to insert a thumbnail so when a user clicks on it, a Youtube video shows in the generated lightbox. is this possible or is the thumbnail feature only for images?

Hello,

The next code can be used:

```
{arisexylightbox activeType="rcontent" width="800" height="450" url="www.youtube.com/watch?v=WyA1dzfKywg" title="Video"}}{/arisexylightbox}
```

Where LINK_TO_IMAGE is link to image which you want to use as video thumbnail.

Regards,
ARI Soft
