
No captions - picasa

Posted by gina - 2011/06/30 00:51

Hello!

I'm using the Sexy Lightbox and is exactly what I needed, thank you!

I have a question, how can I turn off the captions that come from Picasa?

Cheers!

Gina.

P.S.I tried to leave empty the "Caption template" option under System - ARI Sexy Lightbox Anywhere plugin, but it doesn't work.

Hello,

Do you use "ARI Sexy Lightbox" module or "System - ARI Sexy Lightbox Anywhere" plugin?

Regards,
ARI Soft
