Multiple galleries in same article
Posted by Brigitte - 2011/07/10 17:39
_____

How do you insert multiple galleries in the same article.
The following code only shows the first set of images:
{arisexylightbox activeType="imglist" dir="images/phototoronto2" thumbWidth="140"{/arisexylightbox}
{arisexylightbox activeType="imglist" dir="images/phototoronto" thumbWidth="90"{/arisexylightbox}

Many thanks.

Hello,

The code should look like:

{arisexylightbox activeType="imglist" dir="images/phototoronto2" thumbWidth="140"}{/arisexylightbox}
{arisexylightbox activeType="imglist" dir="images/phototoronto" thumbWidth="90"}{/arisexylightbox}

PS: } symbol is missed in {arisexylightbox} tag.

Regards,
ARI Soft

Thank you for the quick reply. Unfortunately I am still having the same problem. Only one gallery shows up.
Thanks.

Could you provide link to page where we can see the problem and temporary access to your J! backend by email that we
can investigate the issue?

Regards,
ARI Soft
