## Purchasing the sexy lightbox

Hi I'm currently using your ARI magnifier and I was thinking of changing to the Sexy Lightbox.

My concern is that once purchased I would have major problems setting it up. I have tried the Sexy Lightbox Lite and it didn't work on my site (probably due to me not knowing what I'm doing) Please would you be able to advise me because I would really like to purchase this module.

Many thanks, Lee

Hello,

Could you explain what doesn't work in lite version? Could you provide link to page where we can see the problem?

The problem was that the module didn't work at all. It's highly likely that I set it up wrong.

I will send send my website address details and passwords to info@ari-soft.com as it's not online

"ARI Sexy Lightbox Lite" is content plugin, not a module. Provide link to page where we can see the problem with the extension.

ok I will do that. I have not got the lightbox running on my site, so I was wondering (sorry to be cheeky) if you could set it up and possibly make a test page so i can see how it works

thanks I understand a bit more now. What I really want is to display my products in this lightbox instead of the core joomla lightbox ([http://missvintagelover.co.uk/index.php?option=com\\_sebercart&view=store&ck=4](http://missvintagelover.co.uk/index.php?option=com_sebercart&view=store&ck=4)) for instance - how do I use this lightbox integration

"ARI Sexy Lightbox Lite" is content plugin. Joomla! uses content plugins only in Joomla! articles, it doesn't execute it other content. For described integration can be used "ARI Sexy Links" plugin from ARI Sexy Lightbox package.

It will be possible to use "ARI Sexy Lightbox" instead of core lightbox with "ARI Sexy Links" plugin.

Hi I've just purchased the ARI Sexy Lightbox, configured it and it's not totally working.

The lightbox works fine within the articles, but doesn't work when a thumbnail is clicked within the store (the core joomla lightbox comes up)

I'm not sure if I've configured it correctly.

I'd appreciate if you would be able to take a quick look.

Thanks, Lee

yes it works fine, that's great news, thanks for all your help, you're truly good at what you do

Lee

by the way, what did you do to make it work?
