
sexy lightbox and joomgallery

Posted by stewstew - 2011/07/19 01:50

i installed the sexy lighthbox for joomgallery plug, however, how do i get it to work. i also have the slimbox plug as well. the images popup in the slimbox. i do not see any option to switch and use sexy lightbox.

=====

Hello,

Install and enable "JoomGallery - Integrate ARI Sexy Lightbox" plugin. After this open "Components -> JoomGallery -> Configuration Manager -> Detail View -> Global Settings" page on Joomla! backend and set "Open Original Image in" parameter to "additional plugin".

Regards,
ARI Soft
