
No NEXT and PREV Buttons

Posted by skippy - 2011/07/19 18:39

Sorry but I need more help.

Hope this makes sense?

In my website where I have my store and products I would like to be able to display more than one image when the thumbnail is clicked.

For instance there is a product that has 2 images in the same folder - why is it not picking up the second picture? Should there be a next and a previous buttons?

kind regards, Lee

Hello,

Did original lightbox (core lightbox) provide navigation between the images? All images are loaded on the page?

I'm not sure what you mean. but where you add the thumbnail i have selected the folder, shouldn't it pick up all images from there?

If you mean replacement of "core lightbox" in your shop, the plugin replaces original lightbox. It doesn't add additional thumbnails.
