
Re: Help with New User

Posted by TaberTV - 2011/08/12 01:48

I am sure this has been posted and I have been searching but no luck. I am a new user to ARI Sexy Lightbox and just completed my purchase.

I have some text on a page "Play Video" and wish that once I click on it that it opens the lightbox with a youtube video in it.

Can someone please provide me with a step by step guide to do this? Please do not leave anything out... LOL

Also, any image that is on my site opens in the lightbox. Is there a way to turn this off?

Thanks everyone

Doug

Hello,

If you want to use "System - ARI Sexy Lightbox Anywhere" plugin, do the following:

1. If you use Joomla! 1.6+, install and enable "System - ARI Extensions" plugin. In other case skip this step.
2. Install "ARI Sexy Lightbox" module.
3. Install, configure and enable "System - ARI Sexy Lightbox Anywhere" plugin.

After this place the next code into an article (if you use a WYSIWYG editor, switch it to plain text mode because editors can add extra HTML code in design mode):

```
{arisexylightbox activeType="rcontent" width="800" height="450" url="http://www.youtube.com/watch?v=WyA1dzfKygw" title="Video"}Play Video{/arisexylightbox}
```

About problem with lightbox and all images, try to disable "System - ARI Sexy Thumbnails" plugin.

Regards,
ARI Soft

I did try your code but on the article it shows the text. How do you hide it?

Thanks

Doug

Sorry, but what text you mean? Could you provide screenshot where we can see the problem?
