
ASL with Ari Cloud Carousel? dont work :(

Posted by aivilon - 2011/08/12 05:37

Hy Everybuddy,

got a problem.

I have ari cloud carousel installed. it works great. but ASL dont work. i integreated it in ACC, i activated. But it dont work.

Whats the problem? what have i forget?

greetings B)

Hello,

Check that "ARI Sexy Lightbox" module is installed and "System - ARI Sexy Lightbox" plugin is installed, configured and enabled. If it doesn't help, provide screenshot of "ARI Cloud Carousel" module settings and link to page where we can see the problem please.

Regards,
ARI Soft
