
Gallery no Color

Posted by fazbiz - 2011/08/17 18:35

Can anybody help me?

My gallery come out with no color. I have check the setting several time the greyscale filter is 'No'.

<http://www.lsisystems.com.my/images/xgreyscale.jpg>

Example URI : <http://www.lsisystems.com.my/project-gallery/architectural/bangunan-sultan-abdul-samad>

And one other think can this module create gallery like www.neolightdesign.com?

Hello,

Open "Tools -> Clean Cache" page on Joomla! backend and clean browser's cache. If it doesn't help could you provide temporary access to your Joomla! backend by email that we can investigate the issue?

PS: About neolightdesign.com gallery, could you provide exact link to page where we can see gallery which you mean.

Thank you. It's working.

Regarding the neolightdesign.com, please go to page 'Projects'.
This website is made using Flash but I wonder if ARI Sexy Lightbox can make similar as neolightdesign.com Projects page.
