
Solved! Mayor bugg in System - ARI Sexy Thumbnails

Posted by Centralbyrakraten - 2011/08/19 16:07

After installing and activating the ARI Sexy Thumbnails plugin my back end collapsed with this error message:

Warning: require_once(/home/a/arelavin/www/joomla/modules/mod_arisexylightbox/includes/kernel/class.AriKernel.php)
: failed to open stream: No such file or directory in
/home/a/arelavin/www/joomla/plugins/system/arisexythumbnails/arisexythumbnails.php on line 16

In order to get into my back end again I had to errase the plug in through FTP and MySQL. :angry:

Hello,

Have you installed "ARI Sexy Lightbox" module before installing the plugin? This fact is described in readme.txt file from extension's archive.

Regards,
ARI Soft
