
Lightbox link sending me to external link.

Posted by ezravan - 2011/08/25 20:30

hello,
I installed all lightbox plugins and enabled and configured them. I'm trying to use the light box anywhere for a youtube video.
I place this code in the editor in HTML mode:
{arisexylightbox activeType="rcontent" width="800" height="450" url="http://www.youtube.com/watch?v=WyA1dzfKywg" title="Video"}Play Video{/arisexylightbox}

There is a play video text link on my page... but instead of opening the lightbox it takes me to youtube.com

<http://www.novelweek.com/voip-phone-systems-and-servcies>

can you help me out.
thanks

Hello,

Open "System - ARI Sexy Lightbox Anywhere" and "System - ARI Sexy Lightbox" plugin settings pages, check that "Include jQuery" parameter is set to "Yes" and re-save plugin settings in any case.

Regards,
ARI Soft

Could you provide temporary access to your J! backend by email?

Regards,
ARI Soft
