Ari Sexy Links

_____

Hi

I have a RSForm loading in a Sexy Lightbox using the links functionality, is there anyway to add a title to the popup?

This is the URL: http://www.wings.net.nz/

The menu item 'Wings Asset Register' will activate the Sexy Lightbox.

Thanks

jmac

Hello,

Open "System - ARI Sexy Links" plugin settings page and use the next code in "Elements CSS selectors" parameter:

".menu LI A"|width=800&height=350&title=Test

Regards,
ARI Soft

Thanks that's fixed it, nice to know there is someone there who knows all of the answers.

Thanks for the speedy reply.

jmac
